

## **Days Uncertain**

### **Verse 1:**

*I heard a primal cry  
A wordless song  
Your mother sigh  
I saw your eyes light up  
A face first fully known  
I felt your hand take hold  
In April air  
Your skin now cold  
Grasping for hope in fear  
Of all we cannot own*

### **Chorus:**

*Welcome to days uncertain  
Welcome to all we've learned and will never know  
Welcome to everything  
You are all that you need to bring  
All that is sure is you won't ever have to wonder here alone*

### **Verse 2:**

*I heard a quickening breath  
A thirst for life  
Your quiet quest  
I saw your trusting eyes  
With questions yet unformed  
I felt your searching skin  
Where all is strange  
As all begins  
Sensing a changing space  
A world now newly born*

### **Verse 3:**

*I heard the truth, the lies  
The fever pitch  
The choosing sides  
I saw a race to save  
What never seems to last  
I felt the fracture lines  
The widening gaps  
The warning signs  
Foolish enough to dream the best times hadn't passed*
